SUMMARY

Full-stack developer specializing in Next.js, TypeScript, and MongoDB, with hands-on experience building JWT-authenticated, full-stack applications and RESTful APIs. Currently building Apti-Core, a full-stack aptitude-test platform for placement preparation, alongside a Full Stack Developer internship at Saiket Systems.

SKILLS

Languages: JavaScript, TypeScript, Python, Java (basic), C/C++.

Frontend: React.js, Next.js, Tailwind CSS, Shad-Cn UI, HTML/CSS.

Backend: Node.js, Express.js, RESTful API Design, JWT Authentication & Authorization.

Database: MongoDB.

Tools & Testing: Git/GitHub, Postman (API testing).

PROFESSIONAL EXPERIENCE

Full Stack Next.js Developer Intern Aug 2026 – present

Autowhat.ai project: https://autogate.autowaht.ai

- Contributed to the development and enhancement of **Auto gate**, a full-stack web application at **autowhat.ai.**
- Developed and integrated responsive**,** reusable frontend components to improve application usability and overall user experience
- Collaborated with the development team to implement project requirements and deliver production-ready features.

Full Stack Developer Intern May 2026 – June 2026

Saiket Systems

- Reduced API response by 80% by building responsive full-stack interfaces in Next.js and TypeScript and optimizing REST API integrations with Node.js and MongoDB backends.
- Secured user-facing features across application modules by implementing JWT-based authentication and authorization for protected routes and role-based access.

Frontend Developer Intern Aug 2024 – Sep 2024

Octa-net Services Pvt. Ltd.

- Improved cross-browser rendering consistency across 20 by auditing and fixing responsive UI components in HTML, CSS, and JavaScript.
- Increased UI delivery speed by pairing directly with designers and back-end developers to align component builds with API contracts and UX requirements.
- Reduced accessibility and performance issues by 80% by optimizing assets and markup for cross-browser compatibility.

PROJECTS

Library Management System — Full-Stack Application

- Cut book lookup time by 70% by designing a searchable, responsive interface in Next.js, TypeScript, and Shad-Cn UI for 100 catalogued records.
- Eliminated manual tracking errors by building automated borrow/return logic with role-based access control for students and staff.

Hospital Management System — Full-Stack Application

- Streamlined patient intake workflows by designing RESTful APIs in Express.js to manage patients, doctors, appointments, and billing.
- Secured medical record access across 3 user roles by implementing JWT authentication and authorization on the Node.js/MongoDB backend.

Personal Portfolio — Frontend Application

- Built a fully responsive personal site using Next.js, TypeScript, Shadcn UI, and Tailwind CSS.

EDUCATION

BSc IT — Sandesh College – 8.23/10 CGPA 2023 – 2026

HSC — Sandesh College 2021 – 2022

SSC —Government School 2019 – 2020

CERTIFICATIONS

Python, React.js, Next.js, MERN Stack, Git & GitHub
